

The Daytona Cubs and the Daytona Cubs Booster Club have teamed up with the Dempster Family Foundation to bring you the

## *Burning out 22Q DiGeorge Syndrome Jersey Auction*

On July 31<sup>st</sup>, the Daytona Cubs players and coaches will be wearing specially-designed jerseys that will be auctioned off during the game. Now here's the kicker. The jersey #'s will match those on the Chicago Cubs major league roster. The highest bidder will have the option of having the Daytona Cubs player sign the jersey and then (here's where it gets really good!) they will also have the option of having the jersey sent to Chicago where the front office will assist in having the Major League Cubs player sign the jersey!

All net proceeds from this fundraiser will be donated to the Dempster Family Foundation to assist in their efforts to raise awareness of 22q11.2 deletion (DiGeorge Syndrome /VCFS) and reaching out to other families and their children with the disorder.

DiGeorge syndrome is a rare disease among babies & children that includes a history of recurring infections, heart defects, and characteristic facial features based on genetic material deleted from gene 22.
